15 Killed as Russ Train Derails

Odessa, 55 mortally injured and 43 seriously hurt today when the Moscow to Odessa express was derailed by bandits about 500 miles from Moscow.

Five women were among the 15 killed. The bandits disconnected the rails, causing the locomotive and 10 coaches and baggage cars to jump the track. With the exception of the three last coaches, the entire train, which was traveling at high speed, was completely wrecked, the engine, locomotive and coaches being instantly killed. The rails were torn up for nearly 1,000 feet.

The injured were rushed to Moscow by a special train which had hastened from the scene of the disaster.

Beer Runners Watched for Weeks

The arrest of 19 beer makers and runners at Fort Atkinson by federal officers is the result of a long watch kept over the operations of that brewery since it was acquired by Chicago interests, suspected as being a part of the beer-running conspiracy, and with running backlogs, which has flooded the country with beer for weeks. It was to this situation that the Gazette referred in its editorial on beer running a few days ago.

CHICAGO GANG IS CAPTURED WITH TRUCKS OF BEER

(Continued on Page 2)

It is to take action against those conducting the brewery. Knowledge of which was generally known in Port Atkinson, prompted the federal prohibition department to start an investigation several days ago that culminated in the raid taking place at 12:30 in the grey hours of Friday morning.

No Excitement
Few persons in Port Atkinson were aware that there was any excitement. All but a few of its residents slept soundly through the night and were not cognizant of what had taken place until they awoke Friday morning and saw the federal officers on guard at the brewery, just off Main street and on the banks of Rock river.

Saved off Shot Guns
The three officers who have been watching operations at the brewery for several days were joined shortly after midnight by seven others, each one was armed with saved off shot guns, prepared to meet any opposition that might be offered. It being understood that several Chicago gunmen were included in the personnel of the plant.

The river cutting off escape in that direction, the officers took up their guard on the side towards the street and made escape impossible. They waited until the trucks had been loaded, then arrested several drivers who had taken their seats ready to drive away. This accomplished, several officers stepped inside, covered the men and announced they were under arrest. Not one of them offered resistance, and they were all loaded into one of the large vans, well built to carry a heavy load of beer—or a human cargo.

Locked in a Truck
A man was slipped through the rear door, a handcuff was used as a lock, and the men were being driven over the road to Madison within a few minutes.

One gun was found buried in the sand near the plant Friday. No guns were taken off the men's persons and it is believed by the officers that the guns were tossed into the river.

To Stop "Hi Jackers"
Gunmen it is believed were used by the ring to protect the drivers against possible operations of "highjackers" who in the past have been known to hold up drivers and steal their cargo. One federal agent stationed in a shed near the brewery, from where he made his observations, heard one gunman, talking to another, say that the federal

agents were afraid to come down there.

Ever since the plant was started up more than six weeks ago, the brewery has been operated day and night, apparently with no fear by anyone of molestation. Some local citizens whose suspicions were aroused appealed to local authorities but got no satisfaction. The brewery kept right on operating.

The events of early Friday morning makes it unlikely that it will be used again, as it may be placed under a padlock as a public nuisance, under the provision of the law, if a conviction is obtained.

Convoy of Trucks
Drives away from the plant have been at night. Not every night but several times a week, the convoy of trucks has been seen to come to the plant, and later drive away. When they left they were generally accompanied by one or two automobiles. The time of departure was generally between 12 and 2 a. m. while the townspeople slept.

The trucks confiscated here bear different signs apparently used to throw off suspicion. One of the signs of a G. M. C. Truck with an Illinois license, are the words "Fruit, confections and soda fountain supplies." A sign on a Geo truck reads "Anglewood Electric and Radio Supplies." Another from Milwaukee, reads, "Milwaukee, Butter, Eggs and Cheese." An International truck bore a paper banner tacked on the side, reading "Radio Shop."

This truck had no license plates.

Trucks Camouflaged
"International Dairy Supplies," was the sign another carried. Two Ford trucks confiscated here, Wisconsin licenses and are believed to have come from Burlington. All were enclosed trucks of large capacity, except one from the Elmer Beverage company, Port Atkinson.

In pre-prohibition days, the Smith Brewing company did a large business here, it was operated as a soft drink factory by Carl Elmer until two or three months ago, when the Chicago men obtained control.

It was not believed here Friday that any of the beer believed by federal officers to have been manufactured at the plant, had been sold in Port Atkinson.

Let Kellogg's Bran free your children from that dangerous disease—constipation

Children are subject to constipation. In the excitement of play, they neglect themselves and foster this dread disease. More than forty other diseases can be traced to constipation. Don't delay. Begin at once to cleanse their systems of the dangerous poisons.

Kellogg's Bran sweeps the intestine clean—and purifies it. It drives out the poisons which undermine your children's health. It makes the bowels function regularly and naturally.

Kellogg's Bran, cooked and krumpled, is guaranteed to bring results if used regularly, or your grocer will return your money. It is guaranteed because it is ALL bran! Nothing but ALL bran can be 100 per cent effective. Kellogg's Bran is recommended by doctors everywhere—they know from experience that it brings results.

Happy Day Gather.—The Happy Day club met Wednesday night with Miss Esther Barlow, 402 Fourth avenue. Mrs. L. H. Hillen and Miss Helen Sorenson gave piano solos and Miss Evelyn Bakely vocal solos. Miss Katherine Scheller gave a short talk on the life of Sir James M. Barrie, author and playwright.

GUERNSEY GRADE

MAKES 888 POUNDS

Makes Record of 17,556 Pounds of Milk, Official Record Work.

Amherst Junction — When New Hope Dairy, a grade Guernsey cow, owned by Matt Domszek of this place, produced 17,556 pounds of milk and 888 pounds of butter fat in a yearly test, she set a new world's record for fat by grade cows of that breed.

Domszek has developed a herd of pure bred and grade cows which give a good account of themselves. When fully developed into an unusually good producing cow she was put on test along with some of the pure breeds. The world's record is the result. There is a big difference between such a grade as Lily and the ordinary cow, Domszek declares. A pure bred sire of high producing pedigree is one of the most important factors in developing high producing individuals.

New College Chum — Conference and World's champions are getting to be as common in the dairy world as among athletes.

Wisconsin has a new champion junior three year old Jersey in University of Wisconsin. Her record for the 205 day test is 505.48 pounds per month.

University of Wisconsin — Developed in the Wisconsin College of Agriculture herd from a line of high producing cows. A full sister, University of Wisconsin, is junior two year old champion for Wisconsin with a record of 614 pounds of butterfat. The Wisconsin Jersey state record over all age and milk production is held by their dam, University of Wisconsin, with 15,848.8 pounds. Her butterfat record is 746.75 pounds.

PRESIDENT MADE SOCIETY MEMBER

Philadelphia — President Coolidge was formally made a member of the Carpenter's company, the first outsider to be taken in, at the Carpenter's Hall celebration.

Zeppelin Back After Night Cruise Overland

Berlin — After an all night cruise over the North and Baltic seas, the Zeppelin dirigible 2133 reached Swinemünde on the Pomeranian coast at 7 a. m. Proceeding by way of Stettin, she reached the outskirts of Berlin at 9:25 a. m.

SPECIAL TRAINING FOR JUNIOR HIGH TEACHERS URGED

Madison — Establishment of new types of teachers' colleges, designed especially for the training of junior high school teachers, was advocated by Prof. V. A. C. Henmon of the University of Wisconsin school of education, speaking before the annual conference of Wisconsin City Superintendents here. Normal schools, colleges and universities as organized at the present time do not meet the needs of training for junior high school instructors, Prof. Henmon said. He advocated also raising of standards of junior high school teachers.

Definite Program for Vocational Teachers

La Crosse — Teachers' training work in the vocational field by Wisconsin has a definite program for the first time in the history of the vocational movement in Wisconsin, A. R. Graham, state supervisor of teacher training, told the annual convention of Wisconsin vocational directors here today.

Graham outlined the work which will be carried on during the coming year, stating that teacher training courses will be offered at Stout Institute, University of Wisconsin and Central Continuation school, Milwaukee.

Conferences of vocational teachers will be held throughout the state to discuss common problems also, he said.

BADGER BEES HELP MAKE WISCONSIN "MILK AND HONEY"

Badger bees are teaming with Wisconsin's dairy cows in making the state "the land of milk and honey." "We've got the natural honey for the bees," says H. P. Wilson, beekeeping specialist at the Wisconsin College of Agriculture. "Chief among these are the clovers, white and purple varieties. They are also other scattering sources, such as the basswoods and raspberries."

Noted honey producers credit the white and purple clovers as being two of the world's principal honey plants.

In point of production of honey, the Badger state ranks usually about fifth or sixth with an annual output of 10,000,000 pounds, which is sold to the consumers of the state for \$2,000,000.

Must be a scoundrel farmer located nearby. "What makes you think that?" "I noticed the last scarecrow we passed had on wolf tags."—Louisville Courier-Journal.

COLLEGE JUDGING TEAM IS VICTOR

Wisconsin Team Coached by R. S. Hulce, Wins at Waterloo Show.

The team from the Wisconsin College of Agriculture won first honors in judging dairy cattle at the annual Dairy Cattle Congress here.

This team of Wisconsin boys placed first in judging all breeds in judging Holsteins, Guernseys, and Ayrshires, and seconds on Jerseys. George Kloser of the Wisconsin team was high man in the contest. Twelve colleges were represented by teams of three men each.

In judging Hostens, the teams representing Illinois and Texas were second and third respectively. Ohio and Missouri were second and third on Guernseys; and Nebraska and Ohio followed Wisconsin in that order on Ayrshires. Texas won first on Jerseys, Wisconsin second place, and Ohio third. The total score made by Wisconsin on all breeds was 1545 points with Ohio college behind claiming 1501 points. Illinois placed third.

The members of the Wisconsin team were picked by a series of tryouts at the College last spring and made this fall. The man who represented the college at the Congress was George Kloser of Grant county; Harry Hill, Sheboygan county; Walter Farmer, Buffalo county; and George Brache, Milwaukee county, alternate. R. S. Hulce of the College of Agriculture coached the team.

Advance Work Is Done on Drive

Advance soliciting in the interest of the Salvation Army drive is being done by well organized committees of men and women.

William McCue is chairman of the men's team in charge of this work. Other members of the team are Louis Levy, Robert F. Buzze, E. J. Hamann, H. S. Loveloy, F. H. Jackson, A. B. Bligham, H. S. Hargart.

Miss Grace Mount is chairman of the women's advance gift committee, whose members are: Madeline Paul, Owen, Frank Sutherland, M. O. Mount, Allen P. Loveloy, Jr., Alan Dunwiddie, Arthur Baumann, W. T. Clark, Glenn Sager, Frank Van Kirk, Roy Wisner, Arthur Granger, Francis Grant, Louis Avery, Ella Michaelis, J. M. Holmapple, Sidney Hostwick, P. A. Capelle, Minnie Jones, Sara Richardson and Mary Barker.

Religious School Periods Favored

by Beloit Folk

Janesville clergy and others interested in devoting a period during the regular school day to religious instruction will be interested in the statement by the Rev. P. H. Ralph, Beloit, that more than 50 per cent of the children in the Beloit junior high schools have signed up.

Parents of 363 of the 710 students in the junior high school thus far have indicated their willingness to have their children receive an hour of religious instruction between 2 and 4 every Thursday afternoon, going from the school to their respective churches.

There are two junior high schools, Roosevelt and Lincoln. Sixty-four per cent of the Roosevelt roster and 43 per cent of the Lincoln students have enrolled.

The training classes will be started within a week or 10 days, as soon as the enrollment is concluded. It is being worked out by the Board of West Day Religious Education, co-operating with school authorities who have seen the need for proper religious instruction. Every church in Beloit is represented — Catholic, Protestant, Adventist and Hebrew.

Slightly Embarrassing. Mrs. Smithson had just engaged a new gardener. One evening she went out into the garden and found him hard at work.

"How's my sweet-william this morning?" "Nicely, thanks, ma'am," he answered. "But how did you know my name was William?" — Edinburgh Weekly Scotsman.

The smaller the man the larger his troubles seem to him.

BETTER JUVENILE COURT PLAN URGED

Boarding Home System for Dependent Children, Plea of Expert.

Madison — Enlargement of the Wisconsin juvenile court system and establishment of a boarding home system in the state for dependent children were outstanding recommendations by Dr. C. C. Carstens, New York, director of the Child Welfare League of America, following an investigation of the state's child welfare program and conferences with the state board of control here.

Dr. Carstens has just completed an investigation of child welfare programs in a number of midwestern states, including Michigan, Ohio and Wisconsin. A summary of his recommendations as outlined today follows:

1. Establishment of a larger juvenile court system, including a well supervised probation system.

2. Placing the state feeble minded schools on a purely educational and training basis which would permit placing inmates in helpful occupations in society.

3. Establishment of a state boarding home system in connection with the Sparta Children's home.

4. Creation of a follow-up system in the state's program for crippled children.

Dr. Carstens said one of the most forward steps in juvenile work in Wisconsin has been the establishment of the state juvenile division of the board of control. Such di-

visions are now established in thirty-eight states, he said, and many are functioning with extensive staffs and carrying on extensive programs.

BEACH TRAFFIC AGREEMENT. Ottawa — Trade agreement between Canada and Australia has been concluded after months of negotiation, officials announced.

HIRAM DENOUNCES COURT DECISION

San Francisco — U. S. Senator Hiram W. Johnson, commenting on the decision of the state supreme court in barring the La Follette electors from the November presidential ballot, denounced the opinion as "unjustified by the law, contrary to public policy and of the most harmful consequence."

The senator added that "it is decisions such as this that undermine public confidence in the courts."

Limitations. "Even wealth has its limitations," "Yes—how?" "Say a man wants a big, impressive car. He can't have it too big. In that case people begin building it as a bus."—Louisville Courier-Journal.

Marquette Cement plant, LaSalle, Illinois, reached by the Lone Star Highway

BEAUTIFUL STARVED ROCK — Gibraltar of the Mississippi Valley — what harrowing tales of conflict you could tell!

Here LaSalle and Tonti had their stronghold in 1681 (Fort St. Louis). Here, nearly a century later, the last of the Illini took refuge when defeated by the Pottawatomies, only to find their impregnable fortress a death trap — that they had escaped the tomahawk to perish by starvation.

Now industry hums and motor cars roar through the valley where once was heard little but the swish of speeding arrow and stealthy canoe. And the immense Marquette plant is busy day and night, turning out the kind of portland cement that insures buildings and public improvements as sturdy and enduring as this age-old sentinel of the past.

Norwegian Lutherans to Meet in Historic Church

Council to Order Birdsall Payment

The semi-annual meeting of the Milwaukee circuit of the Norwegian Lutheran Church of America will be held in the historic church, near Waterford, Oct. 21, 22 and 23. This circuit includes the congregations in the territory bounded by and including Milwaukee, Racine, Kenosha, Clinton, Fitch, Janesville and Oconomowoc. Originally the congregations met in the territory of exclusively English congregations in the district and the transition from Norwegian to English is more marked each year. All the sessions of the circuit meeting will be conducted in the English language.

Circuit Pastor on Program
The opening sermon will be preached by the Rev. A. Green, Kenosha. The Rev. J. M. Heston, Waterford, will officiate at the altar at the communion service. The leading topic for discussion will be the Bible passage, Romans 14:17. The sessions of the circuit meeting will be devoted to the discussion of "Elementary Education," introduced by the Rev. O. Lysnes, Clinton.

The Rev. Gustav Steinar, pastor of the English Lutheran Church of the Ascension, Milwaukee, is president of the circuit, and the Rev. J. C. Walden, Oconomowoc, is secretary.

First Church in America
Norway church, where the meeting will be held, is the site of the first church erected by Norwegian Lutherans in America. The original church was a log structure, and after it had been supplanted by the present modern brick edifice the loss of the historic old edifice were shipped to St. Anthony park, midway between Minneapolis and St. Paul, where the old church was put up exactly as it was the first time, and still stands in St. Anthony park on the grounds of the largest theological seminary building erected by Norwegian Lutherans in this country. It is preserved and used as a museum of church antiquities. The original congregation near Waterford has continued ever since it built the first church and it is this congregation which will entertain the circuit meeting this year. The historic spot is on a beautiful and prominent hill three miles northeast of Waterford and 20 miles southwest of Milwaukee. Interurban cars, Milwaukee to Waterford, run through one corner of the church yard. The late Col. Hans C. Heg of the 15th Wisconsin Infantry, the famous "Norwegian regiment" in the civil war, lies buried in this yard. He was killed in action in the civil war. He was a member of this congregation, and the pastor was the chaplain of the regiment.

State Realms to Ratify Choice of Dragons of Klan

Kansas City, Mo.—A promise that state realms hereafter will have a voice in the selection of the grand dragons appointed to rule over them, was made to delegates attending the Imperial Klansville convention of the Ku Klux Klan here yesterday, by Imperial Wizard H. W. Evans.

"I am going to tell you something that will make you feel mighty good," the Imperial wizard told the delegates. "Hereafter each grand dragon whom I appoint will be subject to the ratification of the Klan in the state where he is appointed."

Newspapermen were admitted to the Klansville convention at what Klan officials said really constituted the final session.

Dinner Stories

A camera addict went big game hunting in Africa. One of his companions was chased by a lion, and fled for camp with the lion at his heels. As the poor fellow fled he heard a shout, and looked hopelessly towards the thicket whence the sound came, for he thought salvation was at hand. But it was the camera addict instead. The addict came bounding forth with his camera raised. "Hold on there," he yelled savagely. "Slower! You're too far ahead. I can't get you both in."

It was an appeal case in a Colorado court, and on one side was a testy lawyer and on the other a number of inexperienced attorneys. The arguments on both sides had been heard. Suddenly one of the inexperienced lawyers got up and addressed the court once more. The testy lawyer stood it for a moment, but losing patience, he also rose and addressed the court in this wise:

"Your honor, I would suggest, with all respect to the court, that my learned friend opposite is entirely out of order in addressing the court and, if I may be permitted to say so, the court has no right to be listening to him."

The judge, who at the time was writing, said: "Mr. Smith, it is a great piece of impertinence on your part to assume that the court is listening to him."

"Tom was a man who indulged freely in the luxury of inertia."

"Tom," he was asked, "which do you think are the least undesirable sins of omission or sins of commission?"

"Sins of omission," he replied. "They don't take so much work."

hall where he spoke. The visit, however, was brief, the president arriving shortly before the hour set for him to speak and returning to the train after the trip back to Washington immediately upon conclusion of the exercises in the Academy of Music.

Reviewing at some length, the early history of the nation, the president declared in connection with the meetings of the first constitutional congress that "if we could better understand what they said and did to establish our free institutions we should be less likely to be misled by the misrepresentations and arguments of the hour."

Assailing the suggestion for government ownership of railroads as uneconomic, Mr. Coolidge declared that "in a republic like ours the people are the government, and if they cannot secure perfection in their own economic life, it is altogether improbable that the government can secure it for them." Such ownership, he asserted, would result in an increase in the taxes paid by farmers of from three to forty percent.

On the question of curtailing the power of the courts, the president warned that unless the "integrity of the courts" be maintained as a guarantee of the protection of the individual's rights, "any kind of tyranny may follow."

The scene for the concluding day's celebration of the 150th anniversary of the meeting of the first continental congress and the 20th anniversary of the founding of the Carpenter's company shifted today

A review and retreat were to conclude the celebration, after which Mayor Kendrick was to present the visiting commands with silk flags similar to the original 13-starred flag used by Washington at his Valley Forge headquarters.

PEARLS TAKEN BY ROBBER IMITATIONS

Chicago—The string of "151 matched pearls" taken from Miss Heister White, daughter of F. Edson White, president of Armour and company, by an armed burglar in the White home Wednesday night, are imitations, the victim says. The genuine pearls, which the stolen string duplicated in number, weight and value, were kept in a safe deposit vault, according to Miss White. The rings, valued at \$1,500, taken by the robber, are genuine.

WISCONSIN TOBACCO MARKET (SPECIAL TO THE GAZETTE)

Edgerton—The Wisconsin Tobacco Reporter Friday says: "The past week has witnessed great activity in the harvesting of the tobacco crop. Several fine days have given opportunity to make good headway in this work and no time has been lost to rush the work to completion. While there is but little fear of frost, it is generally thought that little would be gained either in quantity or quality by leaving the tobacco in the field longer. By reason of a light crop and drawn-out harvest, help has been plentiful and no complaint, as is quite usual, can be made on this score. At this date it is estimated that fully 75 per cent of the crop has been housed, and with good weather conditions prevailing another week or ten days should see practically the entire 1924 crop safely housed. But as has been evident during most of the season, there will be some tobacco that will never reach the sheds, being unworthy of the labor."

"Activity in the market for old goods continues to clean up desirable stocks in a short time. The A. Jensen & Son 1922 packing of 400 cases was taken over by O. J. Jensen for the account of C. H. Spang and Sons. Swenson & Sons purchased the John Soulmans & Son 1922 packing of about 230 cases, the Harper Leaf Tobacco Co. 1922 packing of 170 cases and the Wm. Kennedy 1923 packing of 60 cases for the account of the H. Fendrich Co.

"The pool has started sampling of their 1923, and sampling of the 1922 will be quite general in a week or so."

Starting Fires
with Kerosene
Risky Practice

Starting or quickening fires with kerosene has caused the death of eight persons and 10 frightful injuries to date in 1924, reports the state industrial commission in a fire prevention bulletin reaching Chief C. J. Murphy here. This method of starting a fire is declared to be one of the most dangerous practices imaginable and the commission warns that it is better to be safe than sorry. To get away from the use of kerosene, the suggestion is made that proper kindling for starting fires should be at hand always.

"Attempting to quicken a sluggish fire with kerosene," says the bulletin, "is the more dangerous process of the two. When live coals or even hot ashes are in the fire box, and kerosene is thrown or poured in, an explosive gas is generated rapidly. A live coal, even the tiniest spark, or a lighted match, will then cause a violent explosion, which usually sets fire to the dress of the thoughtless operator. The most foolhardy practice is to pour kerosene into the firebox from a can. The explosion in the stove spreads back to the can, it explodes in turn, throwing burning kerosene all over the person, usually resulting in death."

"But little less dangerous is the practice of throwing oil into the firebox from a cup or tin can. The resultant explosion usually sets fire to the clothing of the unwise cook, causing frightful burns, and often death."

"Neither is the practice of pouring kerosene on kindling in a cold firebox free from danger as evidenced by a number of reported deaths and injuries resulting therefrom."

"We know kerosene starts a fire in a hurry and produces more heat than burning wood, but it is better to be safe than sorry," better and much safer to provide and use proper kindling for starting fires."

Mr. and Mrs. F. J. Hines, Marion, Ind., are guests at the Casper Blum home.

DOUBT PLANE LOST

Cubasset, Mass.—Navy fliers, after searching two hours for a plane reported to have sunk off here, gave up the task, expressing the belief that the report was in error. They said they found no trace of oil, such as would be expected.

CANDIDATES MUST
HAVE THREE PCT.
VOTE IN PRIMARY

Madison—Candidates whose names are written in on the ballots at the primary election must receive three per cent of the vote cast for president by the designated party before the candidate's name can be certified on the general election ballots, the secretary of state's office has ruled in a new question which has been raised on elections. None of the state democratic candidates are in danger of being eliminated from the state ticket as the result of the finding, it is stated.

WEHRLE CASE WILL

COME UP MONDAY

Madison—The case of Winfred Wehrle, Milwaukee, former employee of the secretary of state's office, who is charged with impersonating a federal official, will be decided by Judge Claude Z. Lane in United States district court here Monday. Wehrle is alleged to have obtained money from persons under arrest for violations of the prohibition laws.

Women a Bundle of Nerves

"Everything irritates me—I am a bundle of nerves, I ache all over and cannot sleep and am so dependent." This extract from a letter written from one woman to another describes the condition of many women who suffer from female ailments. Nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. For fifty years it has been restoring sick and ailing women of America to health and strength.

Badger Guard Has
Two Honor Units

[BY ASSOCIATED PRESS.]
Madison—Two units of the Wisconsin national guards were placed highest among 47 guard units of the United States, Porto Rico and Hawaii in attendance records during the past year, according to information received from the militia bureau by Adjutant Ralph H. Inoué. The two highest units were: Medical detachment, first battalion, 121st field artillery of Hartford, Wis., and headquarters detachment and trains, 1st battalion, 121st field artillery, of Manitowish. The Hartford unit scored 100 per cent attendance among 5,300 units competing and the Manitowish unit scored 95 per cent. In the sixth corps area, the Hartford company was placed first among all units, the Manitowish company, second; Troop E, 195th cavalry of Kenosha, fourth, and the second squadron, 105th cavalry, fifth.

crowded jam and the first heckling that marked his speaking campaign. "Mostly Ode!" Reply.

The heckling consisted of inquiries put to the nominee from the audience as to charges made by Senator Wheeler of Montana, independent candidate for vice president, in his St. Paul address Wednesday night.

that Mr. Dawes was to be criticized for his connection with the Lorraine bank case and also for specific charges made at a dinner in the Lorraine bank case attack that a Milwaukee newspaper had characterized it as "vicious" whereas, he added, it was more like "sulphurated hydrogen in that it left a disagreeable odor, but no mark as in the case of a vitriolic attack."

Reply is cheered.

Addressing his inquiries as to specific instances of an attack of Mr. La Follette on the constitution, Mr. Dawes read the last platform declaration in favor of constitutional ratification of supreme court decisions and added:

"You may not be able to understand that, but—" comes from the audience drowned out whatever else Mr. Dawes might have intended to say on that point.

He previously had denounced this La Follette platform declaration as "an assault on the constitution" which, he said, Senator La Follette had made in order to obtain socialist support for his candidacy.

LAND SUIT STOPPED

Cranston—The \$50,000 damage suit brought against the Connor Land company was thrown out of court here by Judge W. E. Quinlan because of lack of evidence on the part of the plaintiff, Adolph J. Allen.

GERMAN GO-GETTERS BUSY
Lancashire, China—Kansai province is being invaded in force by German business interests. German agents are on the spot prepared to take any small offerings in business way, looking to future possibilities.

Not Often

There are a few things we do a limited number of times during our life. The purchasing of furniture comes just occasionally.

Buying furniture is a serious problem to which most people give a lot of thought. A piece of good furniture gives joy for nearly a lifetime.

There's a reason for every growth. The Leath furniture stores grew from one to twenty in nine years, because we are large buyers and manufacturers, and positively do sell good furniture for a little less.

FIRM IS EXPELLED

South St. Paul, Minn.—The firm of Butler, Hyde & Johnson, livestock commission merchants at South St. Paul, has been expelled from the South St. Paul Livestock exchange by a decision of the board of directors, for a violation of rules, it was announced.

STEAMER IS RESCUED

Saint Ste. Marie, Mich.—The steamer William Palmer, with her propeller a wreck after having been tossed on a reef below Detroit in Sunday's storm, passed upbound for Duluth Thursday in tow of the steamer C. M. Moll.

One of Our Very Best Walnut Bedroom Groups

4 Beautiful Pieces---for \$335

Here is a very superior bedroom group, which stands out far ahead of scores of others in distinction, fine finish and construction.

It is a group, the very excellence of which takes it apart from the ordinary.

Made in Rockford in a factory whose furniture has helped to earn for Rockford furniture, the enviable country-wide reputation for furniture of the finest quality.

It is natural to expect that Leath's would be enthusiastic exponents of such fine furniture.

The Distinction

Note particularly the Colonial design—Dignified, reserved yet unusual—French walnut, with a lighter maple effect on the top drawers. A group to make a bedroom one of the most beautiful rooms in the home—a room its owner can well be proud of.

The Construction

Construction typical of that which is seen in the furniture cherished by many generations. Interior finish so smooth, so fine—so perfect one cannot help admiring it. Seldom do you see such superior finish at such a moderate price.

Dresser \$89.50
Vanity \$89.50

Bed \$76.50
Chiffonette \$79.50

At Last---a Really Comfortable Mattress---That Won't "Mat-Down"

Imagine a cushion on one of the new upholstered davenports matting down—it can't, the scores of little oil tempered steel springs inside it, won't let it. Now this new really comfortable mattress, that is made especially for us in the Hotel Mattress Mills, has several hundred such springs imbedded in the center, around the springs which are encased in muslin, there is layer upon layer of soft downy cotton. Can't you well imagine in this new mattress just such a one as you have longed for. A mattress that is really comfortable—one that won't mat-down—and one that will last indefinitely. Our price is less as you might expect \$38.50

Inexpensive Rugs That Will Wear and Wear

Is that the kind of a rug you are looking for—for living room, dining room, or bedroom—then we have two (from many other grades) to recommend.

Bussorah Axminsters \$59.75

Wilton Velvets at \$42.50

Known for their durability, soft deep pile, beautiful colorings. Axminster rugs are favorites where wear is required at a modest price. Bussorah Axminster rugs are among the finest of their kinds. Just now many new patterns and colors that have just been brought out. Choose now, we'll hold them until later if you wish.

A closely woven short pile rug of the type that has long been recognized as very durable and not expensive. There are among the finest of the Wilton Velvet family. In choice new colorings and patterns that will harmonize nicely with other furnishings. Many have already selected theirs, on our lay away plan.

The Best

Where Furniture Saving and Satisfaction is Sure

Turned High or Low Starlight Burns Clean

BURN Starlight Kerosene, and have a clean, airy kitchen and house. There will be no odor, no matter how you use Starlight. In lamps, stoves, incubators and tractors, Starlight will give a clean, odorless flame. Women everywhere are using Starlight because they have found a way to get rid of the mussy odors of ordinary kerosene.

Starlight has been refined with these ideas in mind—it must burn up clean; it must not make an odor; it must have heat units enough to outlast other kerosenes; it must burn steadily and smoothly, whether it is turned high or low.

If you want kerosene that gives this kind of service, try a few gallons of Starlight. It is the best kerosene for the money—that's why we sell it.
